## DR. MOTZEL APPOINTED DEAN OF ACADEMICS

Dr. L. William Motzel of Ormond Beach, Florida has been appointed Dean of Academics at Embry-Riddle Aeronautical University effective May 7, 1973. Dr. Motzel was Manager of Data Systems for General Electric Company's Apollo and Ground Systems in Daytona Beach prior to his affiliation with E-RAU.

He received his B.A. in Philosophy in 1953 from Notre Dame University; his Master's Degree in Electrical Engineering from St. Louis University in 1959; and his Ph.D. in Educational Technology from Catholic University in 1969. He was a teacher in United

States Air Force from 1954 through 1956. He joined MacDonnell Aircraft in St. Louis in the Engineering Laboratory. He moved to General Electric in 1959 as a Systems Engineer and was transferred later to Manager of Educational Systems Engineering, General Learning Corporation in Washington, D.C. In 1967, Dr. Motzel took a two-year leave of absence from G.E.'s General Learning Corporation to do consulting in educational technology for the U.S. Naval Academy, Educational Technology Development Program, the National Planning Assoc-

iation and various other educational associations.

Dr. Motzel has over twelve years experience in systems engineering, management, analysis, program management and functional management. As Dean of Academics, he will be responsible for the administration of Embry-Riddle's College of Aeronautical Studies, College of Aviation Technology, and College of Continuing Education. His broad technical background and management experience, plus his educational background and experience has prepared him to make a definite contribution to a growing University.

## Elections Postponed, To Be Held June 6 CANADATES FEW

Tuesday the S.G.A. Senate debated the relative merits of postponing the elections one week. The proponents won a major victory when Ron Moore, Chairman of Internal Affairs Committee which holds the elections stated it would be best to take more time for advertisement.

The S.G.A. Elections will be held on Wednesday, June 6. Petitions are being accepted until Monday, June 4th.

Eligibility requirements are simple. One trimester at E-RAU completed and 2 trimesters

to go. No probation at time of entry or any time of service.

The slots are numerous and the competition thin so think about it.

Also being held at the same time are Senior Class elections. The requirements are slightly more complicated:

President; to graduate in August not on probation.

Vice-President; to graduate in December not on probation.

Its your graduation why not run it!

## DBSCC Autocross Held Here Sunday, May 27

On Sunday, May 27, the Daytona Beach Sports Car Club will hold an Autocross on the E-RAU complex parking lot. The event will start with practice from 9:30 A.M. till 12:00, and the first timed runs starting at 12:30. Trophies will be awarded to all class winners with a final runoff to determine the top driver of the day.

An Autocross is an amateur road race for sports car or sporty type cars. The event master designs a course with many different kinds of twists and turns, each designed to test the driving ability of the contestant.

The cars are broken down into classes. Similar cars in the same class, or cars of equal power and handling characteristics. The cars in one class are competing among themselves. The object is very simple. Get through the course as quickly as possible (one car on the course at a time) without deviating from the designed course or without knocking down any of the small yellow markers which outline the course.

This is a fun event where the average person can get their thrills pretending to be a race driver on a wide open

course without worrying about being stopped by the man.

Many different kinds of cars will participate in this event, from the exotic foreign machines like the Pantera, Lotus, and Porsche to the more common Sprites and Triumphs; from the weird little mini coopers with their 10 inch doughnut-like wheels to the big bore Corvettes. A little of everything shows up to race-including SCCA race prepared cars and they all are fun to watch.

So if you have the competitive spirit come out and try your hand at this exciting sport or if you want to just come out and watch fun and excitement are guaranteed.

## Photo-bugs, The Phoenix Wants To Use Your Shots

This year the Phoenix will have sixteen pages of four-color pix. Professional photographers have taken shots of campus activities, buildings, people, etc.

However, we do need "off-campus" and extra-curricular, color shots which have not been covered through professional assignment. For instance, golf, tennis,

baseball, basketball, soccer, sky-diving, bar-b-ques, dances, frat activities, etc.

If any students, faculty or staff have taken color pictures of any events such as mentioned above, we'd like to take a look at them for possible inclusion in the Phoenix and the View-book which will be a spin-off. If anyone

thinks they have something of excellent quality they think we might use...depicting any activity our professional photographers couldn't cover on campus...or didn't...we'd appreciate an immediate look. (might even give credit lines! How about that?! Bring them to P.R. in the Admissions Office...and we'll have a go at it!

## E-RAU Blood Drive Is Coming.

## FAA WRITTENS GIVEN HERE JUNE 6 & 7

Federal Aviation Administration Pilot Written Examinations are scheduled to be conducted at Embry-Riddle Aeronautical University June 6 and 7, 1973. Examinations will be conducted in Gill Robb Wilson Room N109.

Students must sign up for the correct examination in Gill Robb Wilson Room L200 prior to Friday, June 1.

The next FAA Pilot Written Examinations to be conducted at Embry-Riddle are scheduled for July 26 and 27.

## COURT MOVES TO A NEW DAY

The summer sessions of traffic court will be held on Wednesdays at 12:00 in Building "A", Room 102. If you have received a parking ticket, you must appear in court unless this is your first violation. First violators may choose to appear in court to plead not guilty to charges.

Personal observation and discussions with our security office indicate that parking violations are numerous. Please cooperate and observe published regulations to help maintain an orderly parking system and to avoid costly fines.
